HAIR • SKIN • NAILS

A beautiful career starts here!

Matching Scholarship Program

Billions of dollars in scholarship money is offered every year in the United States to help students pay for their college education. The Ogle School Matching Scholarship Program was created to encourage students to take control of financing their education, and actively seek out these third party scholarships.

Whether you are a current student or still weighing your college options, Ogle School has a new scholarship opportunity. Beginning July 1, 2014, Ogle will match any third party scholarship a student earns, dollar for dollar, up to \$1,000 per program.

How to obtain matching funds

1. Submit your scholarship award letter to your Ogle School financial planner
2. The scholarship award letter must describe how and when the scholarship will be awarded; e.g., upon enrollment, by academic year, by calendar year or on an alternative schedule

Requirements and guidelines

Ogle School will match any third party scholarship, awarded on or after June 1, 2014, providing the following criteria are met:

- Scholarships funded by Ogle School, including Presidential, Beautiful Future scholarships, and CCST scholarships in Texas are exempt from the Ogle Matching Scholarship program
- Any benefits from current or past employment or contracts (e.g. tuition reimbursement) are exempt from the Ogle Matching Scholarship program
- To receive matching funds you must be in good academic standing as described in the Ogle School catalog
- You must be continuously enrolled full-time at Ogle School. Should you withdraw or graduate from your Ogle School program and return to Ogle for additional education, the Ogle School Matching Scholarship will no longer be awarded to you.
- Ogle School matching funds will be awarded for direct institutional expenses only in the final evaluation or payment period
